Dear Residents of Peasmarsh

I am writing to warn you about Peasmarsh there is loads and loads of litter all around our village. This used to be really clean but now it's ending up like a rubbish dump.

Also, the animals are getting killed! by all the rubbish that is being dropped by all the people. And not bothered to put it in the bin.

Everyone can help today and pick up some rubbish, to help make our World again!

To conclude "I would like to be an Agent of change I pledge to never drop litter again!"
